

政綱 Election Platform:

CF Choy

A strong and seasoned leader - Your candidate of choice!

My values are:

Hong Kong in the 21st Century

We need Legco members to put the needs of Hong Kong before those of their individual interests. That is my pledge to you.

Environment

Status quo is simply not acceptable. While we need agreement with our neighbouring cities on better pollution control, we in Hong Kong can do far more to address the sources of pollution and environmental damage that we ourselves are responsible for.

Education

Our children's future, in the face of our neighbours' rapidly rising competitiveness, demands that we develop the best educational system with the highest academic performance in Asia. This is a goal for which I will fight.

Healthcare

We need to continue our mixed approach to healthcare delivery. Each of us needs to continue to pay a reasonable share of the costs of our health care, and the insurance industry is able to play a bigger role in providing the protection that will be required.

Our Seniors

Following MPF, it is now time to take the next steps in ensuring that all our people have the kind of retirement savings protections that mean as seniors they will have a dignified and secure old age.

Employees Compensation

Hong Kong needs to maintain the right balance between costs and regulatory oversight to ensure secure employment for the entire community.

HK's Financial Role

CEPA should remain the foundation of our mainland access, and that Hong Kong companies should have the ability to compete anywhere in the region.

Industry reputation

We must ensure that every agent, every employee of all of our firms has the training and resources to do the very best job for every client to meet the requirements of the world class industry that we have built.
