The above is the information of the candidates on this list. The election platform of this list is as follows.

Election Platform

In recent years, the internal political turmoil of Hong Kong has stunted the economic growth and limited the improvement of people's livelihood. Often branded as a remote district, New Territories West has been neglected in development discussions despite of its precious geographical advantage.

Leung Che Cheung leads a team of experienced, rational and compassionate community leaders across different sectors to serve New Territories West. We are against deploying brutal and extreme political tactics that have proven only to slow Hong Kong down. It is our firm belief that only through mutual respect and constructive monitoring of the government administration by the legislature can we protect the rights of Hong Kong's citizens and actively promote the development of New Territories West. We urge the supporters who support this constructive and positive approach to unite, and together we can activate Hong Kong!
